Will we ever think of the numbers “2020” the same? I’ve set goals for 2020 using the 20/20 Vision theme since 2000 – but now we DO have a 20/20 Vision look at 2020, don’t we?

We’ve been asked, “What did you do in 2020 that was a COVID-19 Response?” That answer is simple, “EVERYTHING!” The impact of this global pandemic was, well, global! Whether we sent funds, equipment and supplies or people – it was a response to the pandemic. Some were because the partner had spent their medicine funds on the starving people in their community. Others were directly related, like ventilators and oxygen related equipment...no matter the help and hope...it positioned our global partners to care for the needs around them and share the good news!
