

Donations of Medical Equipment

If possible, all accessories and manuals should be included. Most developing countries prefer equipment that is simple and easy to use. Non-electrical tables and equipment are preferred over equipment that is dependent upon electricity to operate. Equipment that requires electricity to operate should function on both 50 and 60 Hz or be easily convertible to different voltage and frequency inputs.

Because FAME cares about what we send to our ministry partners, we accept only clinically and technically appropriate materials for the medical field. Not all medical equipment is practical or appropriate for use in developing countries. If equipment is not listed here, please contact FAME to discuss the items you would like to donate. If we cannot use them, we may know of others who can.

Medical Equipment Needs

Medical/Surgical/Diagnostic/Etc

- Electrosurgical Unit
- Monitor, ECG
- Monitor, Vital Signs
- Pulse Oximeter
- EKG Recorder
- Defib/Monitor
- Suction Pump
- Endoscope & Light Source
- Diagnostic Ultrasound
- Fetal Doppler
- Exam Lamp
- Exam Table
- Sterilizers
- Oxygen Generators
- Surgical/Delivery Table
- Microscope
- Stethoscope
- Blood Pressure Cuff/Monitor
- Oto/Ophthalmoscope
- Laryngoscope
- Centrifuge
- Blood Gas Analyzer
- Scales (Adult and Infant)
- Stretchers

Donations of Medical Supplies

FAME cares about what we send to our ministry partners, therefore we only accept items that are not damaged, dirty, or obsolete. Sterile items should be in the manufacturer's packaging and should be unopened. We cannot accept expired items since nearly all of our medical supplies are sent to international ministry partners, and expired items will not clear customs. Because of this, **we prefer items with at least 6 months of dating remaining.** If you have any questions about medical supplies you wish to donate, especially items not on this list, please contact us to discuss.

Medical Supply Needs

Patient Care/Exam Items

- IV Supplies (Catheter placement, Butterflies, Injection Sites, Extensions, NaCl Flush)
- Syringes/Needles
- Tongue Depressors & Containers
- Cotton-tipped Applicators & Containers
- Gloves (Surgical & Exam)
